This truly spacious detached home is situated at the end of a cul-de-sac with no through-traffic. We describe it as truly spacious as the integral garage design means terrific bedroom sizes upstairs PLUS the ground floor has been extended with a large 5m x 3.3m approx Conservatory which has recently had the roof upgraded with an insulated solid composite tile installation. The rear garden is well landscaped for easy maintenance and includes a sizeable decked entertaining space. With side-by-side driveway parking at the front (and an EV charge point) it remains an option to convert the garage into yet more accommodation (total approx 150 sq m).

Ground floor accommodation includes two separate, adjacent receptions: Living Room & Dining Room which are both generously proportioned (see floorplan) with the recently upgraded Conservatory at the back. This room, as well as the insulated roof, has a heated tiled floor making it a year-round family space. Also re-modelled by the current owners is the fabulous Kitchen and matching Utility Room, all in high-gloss white with sparkling black Quartz counters.

Upstairs, past the guest cloakroom/WC, there's three double bedrooms above the main accommodation, plus a very long (about 5m!) bedroom 4 above the garage which works great as an office/bedroom and would be ideal as a kids/teenage den or home office - there's also a large eaves storage cupboard in there. The Master Suite is notable not only for its space but also the separate wardrobe/dressing area along with an Ensuite Shower Room. Two further double bedrooms and a family bathroom complete the accommodation.
